DAT RateView™

The industry's **only real-time** lane rate tool for Supply Chain and Logistics Analysts.

NEW! Intermodal Rates!

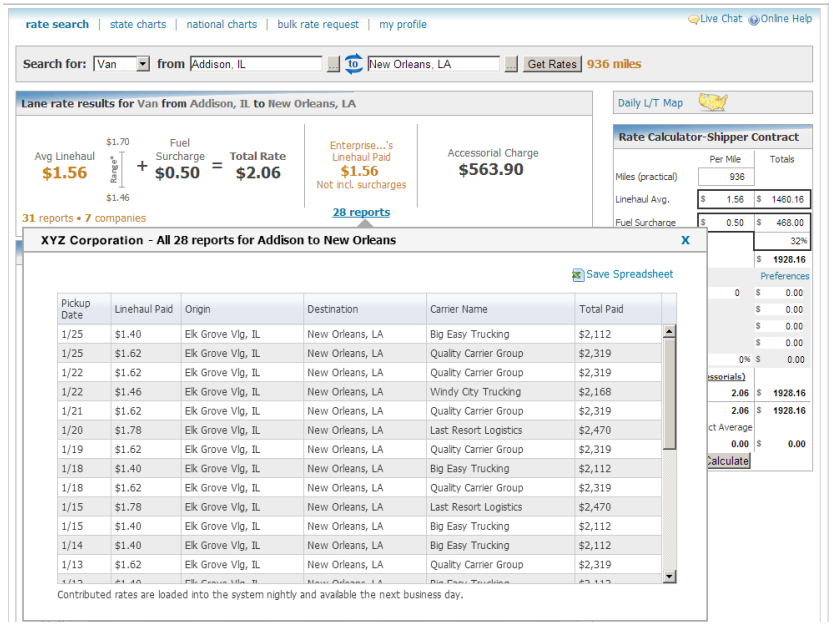
- Compare your intermodal rates to your company's van rates
- Alert your sales and operations teams when intermodal is an option

The industry's only real-time lane rate tool for Supply Chain and Logistics Analysts.

Benchmark lane rates and get current capacity reports

DAT RateView, a unique tool that:

- Provides market rates based on actual transactions for analyzing pricing, benchmarking costs and RFPs
- Shows you seasonal and supply-demand volatility by lane



Supply Chain Analysts can:

- Look-up thousands of lane rates in bulk to compare your performance to the market rates
- Optimize and plan supply chain costs
- Check on specific lanes with single lane rate look-ups

Transportation Buyers/Load Planners can:

- Look-up a single lane rate while negotiating with carriers
- Use spot market data to analyze your lane rates
- Evaluate bids with impartial market data
- Decide if you're paying too much on any lane

DAT RateView™

Transportation Executives can:

- See how well buyers, supply chain groups and 3PL's are performing for you
- Plan and budget with real-time data
- Know if deliveries are on-time by lane and location

Trucking logistics professionals can now harness additional data and tools to analyze rates

- Get supply-and-demand information, inbound and outbound comparisons for each state
- Use 13-month historical rate information for thousands of lanes, in comparison to your own
- Negotiate RFP's from a position of strength and knowledge
