TransCore® DAT® Truckload Rate Index

Truckload Rate Exchange with Real-time Spot Market Rates

The Truckload Rate Exchange is a consortium of brokers, carriers, broker-carriers and shippers who anonymously pool rate data based on actual invoiced spot market transactions. This pooled data provides an accurate, timely barometer of lane rates for vans, reefers, and flatbeds. The Exchange provides actual lane rates from brokers, for brokers – not factored loads or bids.

Membership Includes:

- Comparisons of members' own spot market rates with the average rates on any lane they run
- Our built-in calculator for easily determining rates and margins
- National view by equipment type (van, flat, reefer) plus zone-zone, state-state and market-market rate matrices
- Simple tools to make large bulk lane requests
- A fuel surcharge and 13-month lane history graph
- A current load-to-truck ratio and trend indicator updated daily
- SControl market areas and timeframes to pinpoint lane rates

Membership Benefits:

Exchange members have access to a database of real time spot market rates that give them a competitive edge in rate negotiation.

The Truckload Rate Exchange will help you:

- Improve your margins and increase market share
- Better negotiate with shippers on a buy price that is acceptable in a specific market
- Respond to large RFPs in minutes
- Easily compare changes in the market as well as changes in fuel prices
- Achieve a higher level of comfort knowing you're getting real market rates

The information members provide is proprietary and confidential. Strict privacy guidelines and certain restrictions apply.

How to join:

To find out more about the Truckload Rate Exchange, and to see if you qualify, call a TransCore DAT representative at (800) 547-5417 or email inquiries@dat.com.
