

# Is it time for a TMS?

How can a brokerage tell it's time to upgrade systems? Here are the critical signs that indicate you've outgrown manual processes and inadequate tools, and are ready to take the next step.

If you answer "YES" to any of the following, it may be time to explore DAT Keypoint TMS.

#### Are inefficiencies slowing you down?

Do you find yourself hopping between unconnected tools for a single task?

YES

☐

NO

☐

#### Is your data tough to keep organized?

Is your carrier, shipment, customer and payment data unorganized and hard to find?

☐☐

#### Are you lacking visibility into your financial performance?

Are you unsure of your cashflow and business finance reporting?

☐☐

#### Are your systems falling behind with your growth?

Do your current processes cost you time and limit your capabilities?

☐☐

#### Are you losing track of shipments?

Do you see shipments during every step of their journey?

☐☐
